Languages

- English
- Telugu

Education

2020-2024

Godavari institute of Engineering and Technology(Autonomous)

B.tech -CSE(AI&ML)

CGPA:8.38(Present)

2018-2020

Bhashyam Junior College

CGPA:9.67

2017-2018

Bhashyam Talent School

CGPA:10.0

Skills

- Html
- CSS
- Java Script
- Angular
- Rest API
- Bootstrap
- MYSQL
- Java
- Python

Tools Known

- Figma
- Canva
- Spring Boot
- MySQL Workbench
- Postman
- MS Office

Certifications & Certificates

- Certification on Introduction to programming using python from Microsoft
- Web Development Certification from Internshala
- Certificate on java
- Certificate on c language

Digital Badges

Inter-personal Skills

- Active Listening
- Team Work
- Team Management

Hobbies

- Listening Music
- Playing Games
- Browsing Net

Projects

Brick Breakers Game using python (Tkinter)

- Collaborated with a two person team to co-create a Brick Breakers Game , emphasizing teamwork in the development process.
- Created an immersive gaming experience, promoting skill development and user satisfaction.

Flavour-Flex website Using Angular

- Spearheaded the development of Flavour-Flex, a dynamic website tailored using Angular for bakery and confectionery enthusiasts, offering a high degree of food customization.
- Coordinated a team of four, showcasing strong teamwork and project management.

Employee Database and Payroll System for GIET

- Created an Employee Database and Payroll System with a team of 4 members Utilizing advanced JavaScript, and seamless XLSX integration.
- Streamlined payroll processes, automating pay slip generation, and boosting efficiency by 45%.

Efficient Database Management Via REST-API

- Individually designed a resilient REST API to facilitate smooth CRUD operations within a database.
- Resulting in a notable 60% decrease in data retrieval time and ensuring effective database administration.

Deep Learning Based Breast Cancer Classification System

- As a fourth-year major project, developed an innovative system for accurate breast cancer classification.
- Exploited the power of CNNs, specifically DenseNet-121, to extract vital Texture features like HOG and LBP.
- Achieved an outstanding 98% accuracy in the domain of medical image analysis.

Internships

TechWing Internship

May 2023 - July 2023

- Completed a two months offline internship.
- Collaborated with a 60-member team on a significant project.
- Acquired skills in frontend and backend development, along with database management.

IBM SkillsBuild Internship

Mar 2023

- Two weeks intensive virtual internship on Artificial Intelligence.
- Acquired fundamental knowledge and skills in the field of Artificial Intelligence.

Declaration

I here by declared that all the information given above is true and correct to the best of my knowledge.
